bringing science to life

2025

USA Product Catalog

Bringing Science to Life. Across America.

Wondfo USA Co., Ltd., Headquartered in Bolingbrook, IL, and founded in 2009, is a leading manufacturer of rapid, diagnostic, over-the-counter and point-of-care tests, and analyzers, for identification of substances and disease conditions, as well as health monitoring. Wondfo USA established a distribution center and office suite in Illinois and an R&D and manufacturing center in California, backed by decades of research experience.

Wondfo USA is a subsidiary of Wondfo Biotech Co., Ltd., which was founded in 1992. In 2015 Wondfo Biotech became the first Chinese point-of-care test manufacturer to be publicly traded, demonstrating the company's wealth of expertise and product innovation.

Wondfo manufactures products in four major categories including, Toxicology Testing (SAFElife™), Infectious Disease (WELLlife™), Women's Reproductive Health (HORMONElife™) and Veterinary Diagnostics (PETlife™). Our products have been distributed globally, benefiting millions of people worldwide.

Wondfo is devoted to the development of innovative products and consistently expanding our portfolio to meet clinical, diagnostic and public health needs. Our mission is to provide solutions that save lives as well as improve day-to-day quality of life.

WELLlife™

COVID-19/Flu A&B Test Solution

This product differentiates between SARS-COV-2, influenza A and influenza B antigens with a single test.

Features & Benefits

- 510(k) cleared for over-the-counter (OTC) use AND Professional use
- Outstanding clinical performance
- Results available in 10 minutes
- Extended detection window
- Wide storage temperature

WELLlife™ COVID-19/Flu A&B Home Test

WELLlife™ COVID-19/Influenza A&B Antigen Test

COVID-19 / Flu A&B Home Test

510(k) cleared

- **Rapid & Easy to Use**
  Differentiate between SARS-COV-2, influenza A, and influenza B antigens with a simple nasal swab in just 10 minutes.
- **Up-to-Date Variant Detection**
  Detects multiple COVID-19 variants, including Omicron and the XEC variant, as well as avian influenza (bird flu).
- **Suitable For Ages 2 and Above**
  Adult collection is required for testing children 2-13 years old.
- **Pre-Loaded 12-Pack Retail Holder Design**
  Retail holders come pre-loaded with a total of 12 OTC 1/2ct packs for a total of 12/24 tests. Convenient for retail and pharmacy countertop displays or storage. Features a header card display with QR code for further product details and instructions.
- **Extended Detection Window**
  Offers a broader detection window within four days of symptom onset.

COVID-19 Antigen Home Test

510(k) Cleared for Over The Counter (OTC)/Home use

An accurate at-home antigen test provides a fast and reliable way to detect the COVID-19 virus using nasal swabs from individuals showing symptoms. Ideal for quick checks!

Why WELLlife™ COVID-19 Antigen Home Test is the superior choice:

- **Easy to use and rapid results**
  A single nasal swab offers accurate results in just 10 minutes, reducing healthcare visits and limiting virus spread, ideal for the elderly and parents with young children.
- **Reliable and accurate**
  510(k) cleared confidence, providing the highest levels of performance and accuracy.
- **Pre-Loaded 12-Pack Retail Holder Design**
  Retail holders come pre-loaded with a total of 12 OTC 1/2ct packs for a total of 12/24 tests. Convenient for retail and pharmacy countertop displays or storage.

Diagnostic Tests

WELLlife™ provides rapid, point-of-care clinical diagnostic testing products that address critical needs in the market. The CLIA waived WELLlife™ POC diagnostic tests deliver rapid and reliable results, allowing for faster diagnosis and treatment.

Features & Benefits

- Easy to use
- Results available in 10 minutes
- Room temperature storage
- No dietary or medication restrictions
- Easy sample collection

Group A Streptococcus (GAS) Test

Allows providers to rapidly identify the presence of GAS from throat swab specimens and initiate treatment while the patient is still in the office.

Fecal Immunoassay Tests

Aids in the diagnosis of lower gastrointestinal (G.I.) bleeding, as a method of identifying colorectal cancer precursors and other lower G.I. disorders.

Strep A Test

One Step Strep A Swab Test is a rapid, one step lateral flow immunoassay for the qualitative detection of the Group A streptococcus (GAS) bacteria from throat swab specimens.

Item Code	Description	Box Size / Case Size	Classification
PRE-STA-25	Step A Throat Swab Test	25 / 20	CLIA waived

iFOB

Immunochemical Fecal Occult Blood Test (FIT)

- *Detects human hemoglobin in stool specimens*
- *No dietary or medication restrictions*
- *Easy sample collection*

Item Code	Description	Box Size / Case Size	Classification
PRE-FIT-25KIT	Kit containing iFOB test cassettes, collection tubes and mailers.	25 / 18	CLIA waived
PRE-FIT-25A	Kit containing iFOB test cassettes and collection tubes.	25 / 20	CLIA waived

SAFElife™

Toxicology Solutions

SAFElife™ toxicology products provide a wide range of tests and configurations to monitor drug use and/or misuse for a variety of settings. Oral fluid tests are used to detect substances within hours of use, while urine tests are used to detect substances within days of use.

Features & Benefits

- Results available in 5 minutes
- Small sample volume requirements
- 510(k) cleared/CLIA waived and Forensic Use Only configurations
- Room temperature storage
- Specific and accurate

Urine Drug Test Cups

Tamper-resistant, available in a range of sizes, shapes and leakproof lids. Customizable panels and optional Vaculids for clean transfer of urine samples. Test for up to 26 drugs. Optional adulteration tests.

T-Dip Urine Drug Tests

Ranging from single substance tests up to 16 different panels. 510(k) cleared / CLIA waived and Forensic Use Only tests are available. Use when you are not concerned about specimen tampering.

Oral Fluid (Saliva) Tests

Full observation during collection allows oral fluid testing to be performed anytime and anywhere, greatly reducing the likelihood of specimen tampering. Test for up to 12 drugs and alcohol.

Toxicology Solutions

Rapid Hair Test Solution

Our on-site, rapid hair testing solution includes 17 drug tests, and boasts an impressive accuracy rate above 95% when compared with Mass Spectrometry testing. No more waiting for negative results – save time and costs by confirming only positive samples. Identify individuals who have been able to "pass" traditional urine tests while misusing substances to get them the help they need.

H1 Portable THC Monitor

Our compact handheld fluorescent device allows for semi-quantitative detection of cannabis concentration in urine. With its user-friendly interface and rapid results, you can conveniently monitor cannabis levels. Take charge of your testing needs with confidence and accuracy using our portable solution.

Harm Reduction Tests

Harm reduction encompasses a range of pragmatic approaches and concepts aimed at mitigating adverse outcomes linked to drug usage. Harm reduction tests promote safety through testing drug samples while upholding the rights and dignity of individuals who engage in drug use.

T-Cup Multi-Drug Urine Test Cup

- *Up to 26 drug tests available, customizable*
- *Results in 5 minutes*
- *Easy to use*
- *24 months shelf life from date of manufacture*
- *Female friendly opening*
- *6 adulteration tests available: CR, GL, NI, OX, pH, SG (GL, NI and OX available by special request)*

Fentanyl Urine Test (Cassette/Dip Card)

For OTC (Home) use and Professional use.

The necessity of ultra-sensitive fentanyl detection

Fentanyl is 50 times more potent than heroin and 100 times more potent than morphine. 2mg of fentanyl, which is 10 times less than the weight of a single grain of rice, is considered a lethal dose to an average adult.[1]

For OTC Use

Fentanyl Urine Home Test (Cassette)

Fentanyl Urine Home Test (Dip Card)

For Professional Use, CLIA waived

Fentanyl Urine Test (Cassette), 25 Tests /Kit

Fentanyl Urine Test (Dip Card), 25 Tests /Kit

Product Highlights

- Ultra-Sensitive Fentanyl Urine Detection at 1 ng/mL
- Simple to use, results are a few steps away
- Over 95% accuracy when compared with the gold standard LCMS, ensuring reliable results.
- 510(k) cleared for confidence

Alcohol Saliva Test

One Step Alcohol Saliva Test Strip is intended for use as a rapid method to detect the presence of alcohol in saliva, equating to a blood alcohol concentration (BAC) greater than 0.02%.

To confirm the concentration of a positive specimen, an alternate, non-enzymatic technology such as headspace gas chromatography should be used.

Item Code	Description	Tests Per Box / Case Size	Classification
W53-S-100BX	Alcohol Saliva Test	100 / 25	OTC
W53-S-25BX	Alcohol Saliva Test	25 / 168	OTC

T-Square Multi-Drug Oral Fluid Test

- *Available for both Forensic Use Only and Employment and Insurance (E&I) Testing*
- *Optional saturation indicator to confirm sample adequacy*
- *Fast and easy collection; No privacy required*
- *Up to 12 different drugs and testing panels including alcohol*
- *Useful in detecting substance use during the window of impairment*

T-Swab Cotinine & Alcohol Oral Fluid Test

What does SAFElife™ T-Swab Cotinine (COT) & Alcohol (ALC) Oral Fluid Test do?

SAFElife™ T-Swab Cotinine (COT) & Alcohol Oral Fluid Test is a rapid oral fluid screening test for tobacco use including cigarettes and vapor as well as alcohol use.

Cotinine & Alcohol Detection

Cotinine (COT), a biomarker for tobacco use, is an alkaloid found in tobacco and is also a major metabolite of Nicotine, which produces stimulation of the autonomic ganglia and central nervous system in humans.

The Saliva alcohol test reflects a Blood Alcohol Contraction (BAC of 0.02% (0.02 g/dL)). This is equivalent to the level at which an individual is considered positive for the presence of alcohol by the United States Department of Transportation (DOT).

Optional Alcohol test

Choose a product with COT and ALC combined or COT only according to your needs.

Product Highlights

- Light weight, flat device
- No privacy needed for sample collection
- Simple, rapid, non-invasive saliva collection
- Results available in 5 minutes

Item code	Description	Classification
** SODOA-116-COT-P	1-Panel COT T-Swab 30 ng/mL	Prescription Use Only
** SODOA-126NT-A	2-Panel COT + ALC T-Swab 30 ng/mL, ALC 0.02%	Forensic Use Only

- Methadone (MTD)
- Opiate (OPI)*
- Oxycodone (OXY)*
- Phencyclidine (PCP)*
- Marijuana 200 (THC)
- Marijuana 100 (THC)
- Tramadol (TRA)

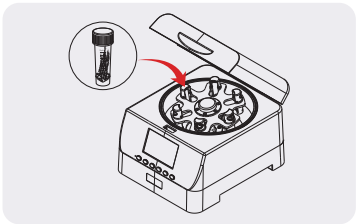

* E&I, others are FUO

Workflow

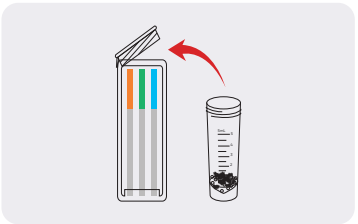

Efficient, accurate, on-site simplicity for drug testing confidence.

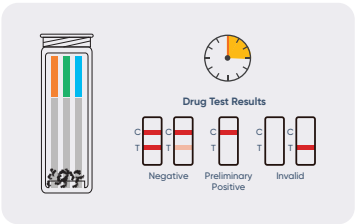

Collect the hair sample, place it into the processing tube, and screw the cap.

Insert the processing tube into the SAFE life™ hair processor and press the start button.

Remove the processing tube. Wait 3 minutes for sample cooling and pour the tube contents into the testing cube.

Read the results between 5 to 15 minutes depending on the tests chosen.

Harm Reduction Tests

Harm reduction is an evidence-based approach that is critical to engaging with individuals who use drugs, and equipping them with life-saving tools and information to create positive change in their lives and protect them from harm. Harm reduction is a key pillar in the U.S. Department of Health and Human Services' Overdose Prevention Strategy.

Source: SAMHSA (Substance Abuse and Mental Health Services Administration)

SAFElife™ Harm Reduction Liquid & Powder Tests can determine if drugs are present in liquid or powder samples, empowering users with vital decision making information to assist with harm reduction.

Xylazine (XYL) Liquid & Powder Drug Test

Xylazine (XYL) is a non-opioid veterinary tranquillizer, not approved for human use. It has been increasingly linked to overdose deaths. Drug onset is rapid with effects lasting for hours. Studies have shown that individuals knowingly or unknowingly ingest it in combination with other drugs, including fentanyl, commonly resulting in multi-drug toxicity.

Fentanyl (FTY) Liquid & Powder Drug Test

Fentanyl (FTY) is a potent, synthetic opioid analgesic with a rapid onset and short duration of action. Fentanyl is approximately 50 times stronger than heroin and 100 times stronger than morphine. It has become a major contributor to fatal and non fatal overdoses in the U.S.

Benzodiazepines (BZO) Liquid & Powder Drug Test

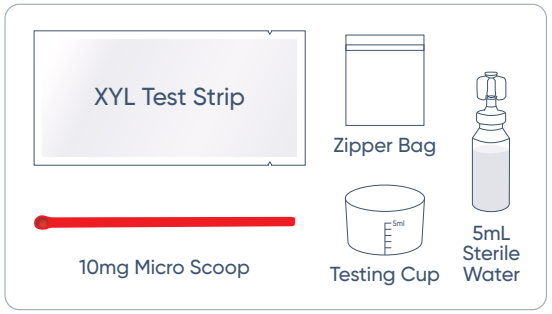

Benzodiazepines (BZO) are widely used in the United States for their medical benefits, including treating anxiety, insomnia, seizures, and muscle spasms. However, their potential for misuse and dependence has led to a growing focus on harm reduction strategies.

Xylazine (XYL) Liquid & Powder Drug Test

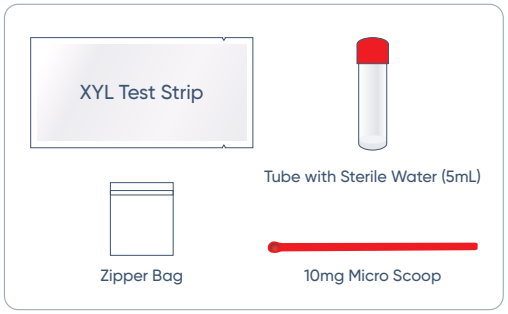

Choose the Test Kit (test strip and mixing accessories) or Test Strip according to your specific requirements.

- ***Detects Xylazine at concentrations at 500 ng/mL or higher.***
- ***Results as fast as one minute***
- ***Easy to use: Step by step instructions and clearly marked kit components***
- ***Cost-effective: Different kit options to meet diverse needs.***
- ***Forensic Use Only/Harm Reduction Use***

HORMONElife™

Rapid Hormone Tests

HORMONElife™ products provide a simple and easy way to interpret pregnancy and fertility test results with a high degree of accuracy. Our pregnancy and ovulation tests offer different levels of analytical sensitivity with standard and early detection, or “higher sensitivity” options.

Features & Benefits

- Results available in 3-5 minutes
- Over 99% accuracy
  (from the first day of a missed period)
- Standard and early detection
- Various forms available: strips, cassette, midstream

Pregnancy Tests

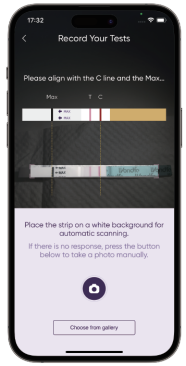

Ovulation Test

FSH Test Strip

PdG Urine Test

HORMONElife APP

Pregnancy and Ovulation Tests

HORMONElife™ Pregnancy Test

The HORMONElife™ Pregnancy Test is a qualitative test which detects the presence of human chorionic gonadotropin ("hCG"), hormone which appears in urine very early during pregnancy.

- *Detects 10 mIU/mL hCG in urine*
- *Detects 25 mIU/mL hCG in serum and urine*
- *Over 99% accuracy (from the first day of a missed period)*
- *Results available within 5 minutes*
- *CLIA waived for urine, Moderate Classification for serum*
- *Various forms available: Strip, Cassette, Midstream*

HORMONElife™ Ovulation Test

The HORMONElife™ Ovulation Test is a qualitative test used to predict an increase in lutenizing hormone (LH), and in turn, the likely time of ovulation

- *Detects 25 mIU/mL LH in urine*
- *Over 99% accuracy*
- *Results available in 5 minutes*
- *510(k) exempt*
- *Various forms available: Strip, Cassette, Midstream*

Item Code	Description	Kit Size / Case Size	Classification
W1-C-CLIA	1-Cassette; hCG Pregnancy Test	25 / 20	CLIA waived
W1-S	1-Strip; hCG Pregnancy Test	20 / 250	OTC
W2-S	1-Strip; LH Ovulation Test	50 / 100	OTC
W1-M	1-Midstream; hCG Pregnancy Test	25 / 20	OTC
W1-M4	1-Midstream; hCG Pregnancy Test	25 / 20	OTC

Ultra Accurate FSH Test Strip

The HORMONElife™ Ultra Accurate FSH Test Strip is a rapid chromatographic immunoassay for detection of Follicle Stimulating Hormone (FSH) in urine. The FSH test helps women determine their fertility and menopausal status, key indicators for women attempting to conceive.

- **Rapid and Easy to Use**
  Results in just 10 minutes with a simple urine dip test.
- **High Sensitivity**
  Semi-quantitative results with varying sensitivity levels to cover different stages of the menstrual cycle: 5/10/25/50 mIU/mL.
- **Health Empowered**
  Gain valuable insights into fertility status.
- **510(k) Exempt**
  Available without prescription.

Item Code	Description	Kit Size / Case Size	Classification
W52-S-SQ-25BX	Semi-Quantitative Follicle Stimulating Hormone (FSH) Strips 5/10/25/50 mIU/mL	25 Tests / 20 Boxes per Case	OTC

PdG Urine Test

Pregnanediol Glucuronide (PdG) is the major urine metabolite of progesterone. The HORMONElife™ PdG Urine Test Strip detects elevated levels of PdG in urine. Using the test at various specific intervals helps confirm ovulation.

Ovulation & Fertility

Pregnancy cannot occur without ovulation, but ovulation doesn't necessarily occur every cycle for every woman. It's estimated that in a third of all menstrual cycles, ovulation doesn't occur. [1]

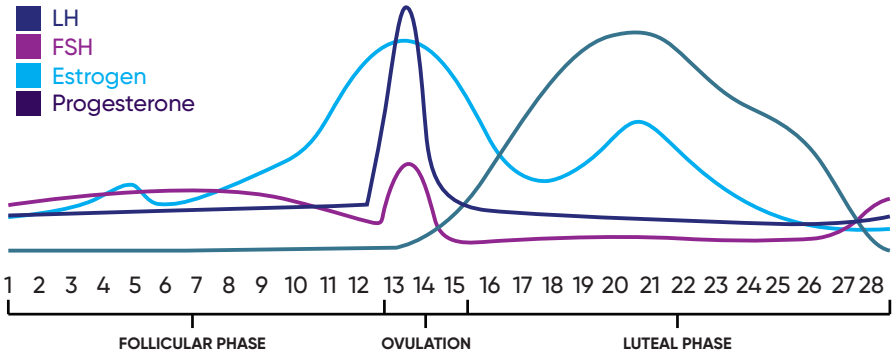

Women struggling to conceive need to understand their fertility and ovulation status.

PdG test can provide insights into progesterone levels and overall reproductive health.

What is PdG?

Pregnanediol Glucuronide (PdG) is the major urine metabolite of progesterone, that helps confirm whether ovulation has occurred. Studies show that PdG levels in urine correlate with progesterone levels in blood.[2]

Progesterone and PdG levels typically peak around 5 to 9 days after ovulation. This is the peak fertility window. It may take up to 5 days after peak fertility for PdG to return to a sufficient level at which to produce a positive test result.

Features & Benefits

- Helps to Confirm Ovulation
- High Sensitivity
- 510(K) Exempt
- Rapid & Easy to Use
- Results in just 5 minutes with a simple dip test

HORMONElife™ App

Period, Ovulation, and Perimenopause Tracker

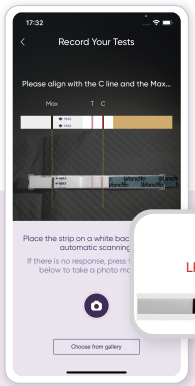

HORMONElife™ is the ultimate fertility tracking app that empowers women on the journey to parenthood, with unmatched precision and simplicity.

- **No More Guessing**
  Automatically scan ovulation tests for a clear digital interpretation.
- **Track Hormone Trends**
  Monitor hormone levels with intuitive charts to understand patterns.
- **Predict Fertile Window**
  Intelligent algorithms forecast the optimal conception window with precision.
- **Boost Conception Chances**
  Accurate predictions based on hormone levels, temperature, and age to enhance your likelihood of conception.
